# Webinar: Managing Change and Change Orders on Construction Projects

Change orders are inevitable on construction projects. They act as a safety relief valve for both owners and contractors over the course of construction. While changes cannot be stopped all together, they can, and must, be managed, for the benefit of both the owner and the contractor, to enable delivery of successful projects on time and within budget. Therefore, owners and contractors must learn how to manage changes to the work during construction.

### This webinar discusses

- how and why changes arise during the construction phase
- what owners can, and cannot, change
- types of changes to work in progress
- how each type of change order should be handled on site
- rules of contract interpretation
- what damages may be owed under the Changes clause
- how changes can be resolved on the project site

### Participants will learn:

- best practices of change management during construction
- the most common causes of change
- the basics of change management and control
- the two types of change orders
- a logical change order process
- a roadmap for to deal with constructive changes
- typical recoverable damages under the Changes clause

### Who would benefit most from this program?

Project Owners, Owner Reps, Design Professionals, Construction Managers, Project Managers, Facilities Managers, Engineers, Contractors, Legal Counsel and more ...

► **Instructor: James G. Zack, Jr.** is Principal of James Zack Consulting, LLC, a construction claims consultancy dedicated to helping Owners and Contractors complete projects in the field, not arbitration or court. He is a recognized, published expert in mitigation, analysis, and resolution or defense of construction claims and disputes. In his 49-year career, he has been involved in public and private projects throughout the U.S. and 39 countries, working with Owners and Contractors on 5,000+ claims. He is Sr. Advisor to Ankura Construction Forum™ and was previously Ex. Dir. of Navigant Construction Forum™; Ex. Dir. of Corporate Claims Management Group at Fluor Corporation; VP at PinnacleOne; and Sr. Construction Claims Consultant for CH2M HILL, Inc. He is a Fellow of AACE, RICS, GPC, SCCSI. His professional certifications include: CCM, CFCC, ECCCS, ECCDA and PMP.
